Mission

Mission of the club is reflected in the contribution to development of sport especially of basketball both in Bosnia and Herzegovina and in the narrow and wider region through activities performed in the club by respecting the legality of the system and of the organization which are highly standardized in the club. Regarding this the club is opened toward public and environment, it encourages and affirms the inclusion of young people to do sports starting from the youngest selections in the basketball school through the competing selections in which young talents have a possibility to affirm, and show themselves which develops all components of the personality both character features and psycho physical status of every individual.

In its mission the club developed a concept of healthy development, care and health protection of every individual which is being complemented by educational work which directs, encourage and helps in education, further schooling and specialization of youth which are the part of the club family.

Vision

Vision of the club is to become a respectable sport collective which will have a significant role in the development of sport in Bosnia and Herzegovina and especially basketball and which will make real conditions for transformation into the basketball centre through its program activities, professional work and orientations which will be open toward environment and which will have a socially useful value which will be recognized and usable. As such basketball centre with a base in which the basketball school will be massively popularized the selections of younger categories with the sport education as a preference and competing selections in the state championships which are the opportunity for young talented players will make conditions for a quality work which will be available to our environment without the need for young talented players and sportsmen to leave to other environments due to better conditions and advancement in the sport career. Vision of the club is to make new approach in the organization of sport environment, a new reflections which will put our environment into the centre of happenings and raise the entire development of sport in BH to higher level which will reflect positively on the status of our sport and basketball in Europe and entire world. Regarding that the task of the club is continuous monitoring of changes which happen in the sport world, especially basketball and harmonization with trends in all fields of professional work and supporting organization structures.

About us

Basketball club "SPARS" was founded in 2005 in Sarajevo, with the primary objective of popularizing all those moral values that can be acquired through sports in general, and basketball in particular.

Our vision is clear: to provide versatile continuous influence on young men through development of personal and social values. One of the important conditions, and therefore the task that is set before us, at the very beginning of operating the club is the choice of coaches, or people who will be able to carry out the intended objective. The primary objective in working with children is to gain trust of the children and then parents, especially in the time we are living in, for what there is no need to waste the words.

Quality as standard was primary from the very beginning, and it is not surprising the fact that the best coaches are gathered to work with young people in the area. The combination of experienced and young coaches, full of enthusiasm and desire for teaching, was the key to success.

The club hired 13 coaches that transfer their knowledge and experience by working with young players, to meet the criteria in terms of quality of training.

Of course, like any club, our has certain ambitions in the area of quality work with the most talented individuals, so that one of the reasons for launching the largest possible number of basketball school point is making larger base that will give new top basketball players. It can be said we are the most organized and most attended basketball school in the city of Sarajevo and of B&H.

All these activities have one objective that students of basketball school develop consistence, discipline, team spirit, responsibility, personality, creativity and positive thinking. Every child has the opportunity to participate in SPARS INTERNAL LEAGUE, at the level of the city of Sarajevo, as part of his school's team. In that way we directly affect the early socialization of children, removing the possibility of social rejection.

Our team monitors not only the physical development of students of our basketball school, but also various aspects of social activity, including education. Development of personality and responsibilities directly affects the rejection of deviant behavior in modern society (drugs, alcohol...).

We managed to select nine competitive selections: seniors, juniors, youth juniors, cadets, youth cadets, pioneers, youth pioneers, minibasket and woman juniors-cadets. Seniors compete in the senior A-1 league of the B&H Championship, and our young selections, proudly wear our club emblem in all competitions in the Canton Sarajevo League, Federal and State finals competitions. Our competitive selections are regular participants in basketball tournaments, which are held in Bosnia and Herzegovina and abroad. As regular winners at all competitions and tournaments, basketball club "SPARS" proudly presents the city of Sarajevo and Bosnia and Herzegovina, and is widely known in the world of basketball.

In the season 2006/07 and 2007/08 SPARS also achieved noticeable results in the women's competition. In the above mentioned seasons, SPARS has appeared in the Premier League BH and achieved remarkable results. Already in the first season of competition we won second place in the B&H Cup.

About us

The standard was set, and the future will show that only quality work can produce quality players and future champions.

In the last competition season, your and our SPARS in all categories achieved significant results in the state championships, which gave incentive for further work and stepping up the stairs leading to the top, where only the best are. And that came true! Every step of our younger selections in the previous season was a success! Pioneers and juniors of SPARS are B&H champions for the 2011/2012 season. Cadet selection is vice champion of B&H and our youngest selection of Mini basket is the Sarajevo Canton Champion. We must point out achievements of our selection in tournaments in France and Italy, then participation at the prestigious qualification tournament of Euro League for juniors, held in Barcelona. For the first time a club from Bosnia and Herzegovina has the honor to be a participant in this event, and to be in the company of European giants Barcelona, Real, Ritas and Kahasol. In the actual competition between 96 most talented players of Europe, Nedim Buza was named most talented player of the tournament and the center of SPARS, Đoko Šalić was chosen among five best of the tournament.

We must specially emphasize our young players Buza Nedim, Vrabac Adnan, Glogovac Stefan and Salčin Nedim who as bearers of the game at previously held European championship of "B Division" in Sarajevo won first place and thus qualified for the "elite class" of European basketball for the first time of the existence of the B&H KS. Games of our Buza, Vrbac and Glogovac were recommendations to take their place in senior national team of BH, which made them the youngest players in history of basketball sport of BH and abroad. It is our duty to say that we are the only club in Europe to have three players at the prestigious NBA camp held in Moscow from 13 – 15 September this year, (Buza, Šalić and Nikolić). Nedim Buza was named MVP of the tournament in the competition of 45 players from 25 countries. All these achievements clearly demonstrate the maturity of the club that steadily built its success over the past seven years.

Like the last season, so this season our junior selection has received an invitation to participate in the qualification tournament of junior Euro League. This year our club participates in a tournament in Rome that takes place from 27-29 December 2012. In addition to our team, giants of European basketball participate in tournament: ACEA ROMA, FENERBAHCE ULKER, MANDOULIDIS THESSALIONIKI, STELA AZZURA ROMA, UNICAJA MALAGA, VIRTUS BOLOGNA and VIRTUS SIENA.

Winner of the tournament will provide their performance at the final tournament of the top eight teams in Europe which will be held in May 2013 in London, when final four Euro league is on schedule for the 2012/2013 season.

This is another proof that SPARS became respected collective and example of sport organization that has its own mission, vision and strategy with clear objectives and task. All this says that the name SPARS is already recognizable in Europe, which at the same time is an honor and one great obligation in the future which we will surely know how to handle.

Torneo Citta di Roma has a new champion! It is none other than KK Spars Sarajevo!

At the qualification tournament of the Junior Euroleague held in Rome from 27 to 29 December 2012 a historical success for BH basketball was achieved. For the first time in its history, BiH had its representative - SPARS team, which participated and won the tournament with the perfect 4:0 score. In this way it became the first team to win a "ticket" for the final round of the Nike International Junior Tournament, scheduled for 9 – 12 May 2013 in London and which coincides with the final tournament of Turkish Airlines Euroleague!

Prvaci u Rimu! Osvajači prvog kvalifikacionog turnira juniorske Eurolige!

In the final game, the great Fenerbahce Ulker Istanbul was beaten with the result 73-55. Spars led the final game from the beginning till the end, opening the game with the lead 18-3 and holding on to the advantage throughout the whole game. Đoko Šalić led the winner with 29 point and 11 rebounds. He was the MVP of the tournament. Aleksej Nikolić and Nedim Buza were chosen for the top five players in the tournament!

We believe in our players and we believe that after the experience from Barcelona and Rome they will achieve their sports dream and climb to the European basketball throne in London.

We are heading to London for the title of „Junior European Champion“!

Projects of the Club:

Spars revolution

PROJECT "SPARS REVOLUTION" includes younger teams and basketball school with all activities and training processes of competition with national championship finals and objective for all the teams to achieve remarkable results and confirm the quality of work and justify the investment, which would make a quality turn at the basketball stage and show that the time for SPARS is coming and that the project "SPARS REVOLUCIJA" has an important role in B&H basketball scene.

Basketball school has 22 teams and over 400 boys and girls who are selected according to age categories in mini, midi and maxi group and they have their **SPARS INTERNAL LEAGUE-SIL**.

Pioneers, cadets and juniors compete in cantonal and national youth league where each selection has its own system of competing and training operation program. In addition the club has developed a **system** of competing in category Minibasket which represents the first club team where potential candidates are selected for the pioneer selection.

Spars generation

PROJECT "SPARS GENERATION" is a project that provides young, talented players of junior selections to prove their talent in prestigious working conditions, along with excellent training treatment and top experts, to explore their possibilities and to position their quality in the company of the senior team. The club management succeeded by its own work and human resources to ensure conditions for creating SPARS GENERATION that will be the future of B&H basketball with new energy resources that are created, selected and monitored in the SPARS club. In the senior team are talented, young players from SPARS GENERATION, which justifies the project and investment in the work and development of talented players which is a long term plan of the club management where the primary task is the quality and provision of quality conditions.
